
THESIS AWARD AUSE 2015/2016: June Ereño Orbea

“Structural basis of the allosteric activation of human cystathionine β -synthase by S-adenosylmethionine”

**Primer premio poster joven
investigador:**
Sandra Ruiz-Gómez
"LEEM-PEEM study of magnetic
nanowires with chemical notches"

**Segundo premio poster joven
investigador:**
Edgar Gutiérrez
"Chain orientation in bulk
heterojunction photovoltaic thin films
as revealed by near edge X-ray
absorption fine structure"

Premio mejor charla:
Ana Cuesta
"Pair distribution function studies in
cementitious systems"
