

INTRODUCTION

The 2nd Mediterranean Meeting on Organic Chemistry will be held at the University of Almeria from 14-16 November 2004, inclusive. This Meeting aims to be a forum for the Organic Chemistry research groups that carry out their activities in the Spanish Mediterranean arc to show their new developments and for the exchange of ideas. The first Meeting was held in September 2002 in Alicante and exclusively gathered Spanish scientists. For the second Meeting, as a first step toward overcoming national borders, two non Spanish lecturers from the Universities of Alexandria and Istanbul have confirmed their participation.
